

“Educational Trip to Guru Ghasidas University for M.Sc. Chemistry Students of Govt. R.R.M. P.G. College Surajpur (C.G)”

On September 2, 2025, the Department of Chemistry at Government R.R.M. P.G. College, Surajpur, Chhattisgarh, arranged an educational trip for M.Sc. Chemistry students (2nd and 4th semesters) to Guru Ghasidas Central University, Bilaspur. Led by Principal Dr. HN Dubey and Chemistry Department Head Dr. Vikesh Kumar Jha, the visit aimed to expose students to advanced research facilities and enhance their academic experience. Guest Faculty Sadhna Bhagat, History Department Head Dr. Saleem Kispotta, Lab Technician Mr. Sanjay Singh, and other lab staff played key roles in organizing the trip.

Students explored the Departments of Physics and Chemistry and the Central Library, gaining insights into advanced scientific instruments such as Powder X-Ray Diffraction (XRD), Scanning Electron Microscope (SEM), Microwave Particle Synthesizer, Atomic Force Microscope (AFM), and the 3.0 MV Pelletron Tandem Accelerator, among others. Faculty members from Guru Ghasidas Central University, including Chemistry Department Head Prof. Khemchand Dewangan, Physics Department Head Prof. Parijat Thakur, Dr. Shatish Sharraf, and other staff, provided valuable guidance, helping students understand the role of these instruments in research fields like Physics, Chemistry, Materials Science, and Nanotechnology.

At the Central Library, students were introduced to digital learning resources, e-journals, and advanced reference materials to support their studies and research. In the last MSc 2nd Semester Students Sakshi Singh proposed vote of thanks and highlighted the impact of this educational trip. The visit enriched the students' scientific perspective and inspired them to pursue innovative research in the future
